

ZOOM

August 2026

Convenience retail, coffee and food-to-go

Useful convenience, with a clear value proposition

Three priorities for the client conversation

01 / Show a verified stop that fits adult errands and returning routines.

02 / Distinguish the real offer from citywide dining promotions.

03 / Test routine storytelling and a trackable store-intent CTA.

UAE / GCC / REST OF WORLD

Historical edition researched on 8 October 2026. Evidence and agency recommendations are separated. These are proposed executions, not existing client campaigns.

Accessed sources: 6 | Proposed briefs: 3 | Portfolio: five brands × four months

Local analysis — UAE

01 / DSS's August Dh10 Dish programme included dessert and coffee combinations at participating outlets.

[U12] 2026-08-05 · UAE · Independent reporting

Published in report month

Competitor/category activation example; ZOOM and Americana participation is not established. Prices were event-specific.

02 / Families interviewed described budgeting, reusing supplies and comparing prices during back-to-school shopping.

[U09] 2026-08-12 · UAE · Independent reporting

Published in report month

Qualitative family sample. Does not prove demand for cake or a particular canned-food SKU.

What this means for ZOOM

August dining offers and household budgeting coverage make a clear proposition important. Show ZOOM's actual products, location and approved price if available; the DSS offer list is a category comparison, not a ZOOM promotion. School-routine creative should address adult carers rather than market caffeinated drinks to children.

Agency interpretation: the recommendation above is a testable creative direction. A source about market conditions or platform activity does not establish this brand's performance.

Regional analysis — GCC

01 / Talabat reported Q2 growth and stronger grocery/retail activity; its GCC GMV rose 5% according to the article.

[U10] 2026-08-12 · GCC aggregate; other markets also covered · Company results reported by media

Published in report month

Company-reported aggregate including UAE. No country-level cake/canned-food sales or ZOOM partnership is established.

02 / An August travel feature described a UAE-to-Oman road-trip itinerary and reminded drivers to check entry, insurance and vehicle documents.

[U13] 2026-08-05 · Oman / UAE cross-border · Independent reporting

Published in report month

Travel editorial, not demand data or official visa advice. Verify eligibility and entry rules afresh.

What this means for ZOOM

Talabat's GCC grocery/retail results and an Oman road-trip feature offer different convenience contexts. They do not establish ZOOM delivery participation or border eligibility. Test an approved shopping path or a useful pre-journey stop, keeping vehicle documents, travel rules and product availability current.

Agency interpretation: the recommendation above is a testable creative direction. A source about market conditions or platform activity does not establish this brand's performance.

Global analysis — rest of world

01 / YouTube reported over 450,000 morning-routine uploads in January-June 2026 in an article published 31 August.

[G10] 2026-08-31 · Global · Official platform data

Published in report month

Uploads indicate creator supply, not audience demand. Global scope; not a UAE result. Available only at month end.

02 / FoodNavigator described more specific use-occasion positioning in functional beverages.

[G08] 2026-08-31 · Global / primarily US beverage examples · Industry reporting / podcast

Published in report month

Ingredient and health claims are not transferable to ZOOM coffee or cake/canned products. Use occasion clarity, not invented functional benefits.

What this means for ZOOM

Morning-routine creative offers an adult moment for coffee; the August 31 upload statistic is not a demand measure. Specific-occasion beverage positioning can make the scene clearer, but functional-drink claims do not transfer to ZOOM coffee. Describe the routine and the product rather than promising focus, calm or recovery.

Agency interpretation: the recommendation above is a testable creative direction. A source about market conditions or platform activity does not establish this brand's performance.

Three briefs worth developing

01 / The useful stop on the way

Opening hook: Before the errands, one useful stop.

Follow an adult through a realistic journey to a real ZOOM store. Show a confirmed coffee or food item and clear store context.

Format: Reel · CTA: Find the featured location.

Production: one controlled shoot; original footage and cleared audio. Confirmed SKU/store offer; all ingredients and allergens reviewed. Adult-facing execution unless child marketing is specifically approved.

02 / Your routine, your coffee moment

Opening hook: Which moment is yours?

Film two adult routines and one actual drink. Use a relevant choice rather than targeting children or promising cognitive benefits.

Format: Story poll + Short · CTA: Choose your moment.

Production: one controlled shoot; original footage and cleared audio. Confirmed SKU/store offer; all ingredients and allergens reviewed. Adult-facing execution unless child marketing is specifically approved.

03 / Before the road trip

Opening hook: What do you check before setting off?

Present a practical pickup list and a reminder to verify travel documents. No guaranteed entry, invented bundle or ongoing August offer.

Format: Carousel · CTA: Save the checklist.

Production: one controlled shoot; original footage and cleared audio. Confirmed SKU/store offer; all ingredients and allergens reviewed. Adult-facing execution unless child marketing is specifically approved.

Recommended mix & test plan

Illustrative 12-post allocation

This is a proposed planning allocation, not a forecast or an existing client calendar. Replace the two campaign slots with confirmed priorities; never invent an offer.

Posts	Editorial role
4	Coffee / food-use occasions
3	Store / offer clarity
3	Adult routines / questions
2	Confirmed campaigns

A measurable pilot, not a promised uplift

Local relevance

Meaningful routine comments and qualified geographic reach where available.

Store intent

Approved location or offer clicks; clicks do not prove store visits.

Test one creative premise with two different openings, holding format length, paid support, targeting and posting context as similar as practicable. Compare against the brand's recent like-for-like posts using consistent metric definitions. Use reach-normalised saves/comments where available. A small organic comparison is directional, not causal proof.

Before production

AM validates the client objective and offer. Creative develops a shot list. The relevant product/technical expert reviews claims. Copywriter prepares English and native-reviewed Arabic with equivalent intent, not a literal forced translation. Agree tracking with the channel owner. Baselines and decision thresholds must come from actual account data.

Sources & reading notes

Reports are reconstructed on 8 October 2026 from accessible public sources. Article publication dates are verified against metadata; current pages may have been updated. This is not an archived feed audit, a comprehensive competitor social audit or measured brand performance. Recommendations and creative hypotheses are authored agency analysis.

Confidence: stronger for directly reported dates/events and official platform statements; limited for market-wide inference from interviews, corporate announcements and adjacent categories. Regional coverage is selective, chiefly Saudi Arabia and Oman plus a GCC aggregate; it is not a six-country social-feed census.
